

# LR-130

## To Preserve the Right to Keep and Bear Arms in Montana

### What's LR-130 all about?

Current state law allows some regulation of firearms by local governments.

LR-130 changes existing law to reduce local government authority to regulate firearms.

Prevents local governments from banning guns by identifying common areas, such as streets, sidewalks, and open spaces as "parks".

Prevents local governments from banning guns by defining as a "public assembly" whenever two or more people come together.

Removes authority for local government to regulate guns for people already regulated under federal law - aliens, minors, felons, and those adjudicated as mentally incompetent.

### **Lies about LR-130**

Opponents will tell outrageous lies about LR-130, attempting to frighten people into voting against it, lies such as:

LR-130 will permit crazy people to kill children in schools. LIE! Firearms in schools are restricted by a different law that is NOT affected by LR-130.

LR-130 will cause shootouts in parks where children will be injured. LIE! This is just a different version of the prediction made in 1991 if a shall-issue concealed weapon permit law were passed. Then, opponents claimed that allowing law-abiding citizens to obtain CWP's would result in "rivers of blood flowing in the streets." Never happened.

Local governments need local control. Wrong! Local governments are already controlled by the most voluminous section of Montana laws, and properly so. We don't allow local governments to enforce a death penalty for jaywalking, and a great deal more. LR-130 is just the adults supervising the children.
